Comments from Jared Gabrilowitz

GTA is expanding its service capacity by adding eight (8) additional vehicles as part of bringing the Access ADA service in-house. Based on this expansion, the one-time implementation and setup costs total **\$7,900** (includes discount on MDT license which was previously \$750 per device).

In addition, the annual operating costs will increase by **\$6,232**, which reflects a proportional adjustment aligned with the terms and cost structure of the existing contract. All costs are calculated using the same per-vehicle rate already established in GTA's current agreement to ensure consistency and fairness.

We appreciate the opportunity to support GTA during this expansion and remain committed to providing reliable technology and ongoing operational support as your fleet grows.

Products & Services

Item & Description	Quantity	Unit Price	Total
Driver MDT License for Paratransit Driver's Mobile Data Terminal License - Secure Drivers Authentication - Manifest dispatch - Turn-by-Turn Navigations - Safe Text/messaging with dispatcher - Auto At-location - Capture all drivers actions	8	\$300.00	\$2,400.00
Paratransit Eligibility Module Verifies riders eligibility by date, Pickup and drop off locations, on-line application processing. Allows GTA to add Access riders under a new funding source rather than a separate operation.	1	\$4,500.00	\$4,500.00
Hourly Labor - Configuration IT Curves' engineering team will configure and rigorously test para-transit routing rules, newly added vehicles, and the eligibility system to ensure seamless integration and optimal performance.	10	\$100.00	\$1,000.00
GTA Operating Cost Adjustment (8 Additional Vehicles) GTA currently pays \$779 per vehicle per year (excluding APC Annual Cloud Hosting Fees). Yearly operating costs will be increased proportionately. The increased costs breaks down to an additional \$520 per month.	8	\$779.00 / year	\$6,232.00 / year
Annual subtotal			\$6,232.00
One-time subtotal			\$7,900.00
Total			\$14,132.00
